Genesis

Genesis tells the story of beginnings: God's creation of the world, the beginning of human activity and the beginning of God's redemptive covenant making with human beings (the stories of Abraham, Isaac, Jacob, and Joseph and his brothers). Without competing with modern scientific understandings, this study investigates two different accounts in Genesis of the creation of the world and how both reveal timeless truths about God's creative purposes. Stories of universal human sinfulness lead to a divine plan of redemption initiated in the call of Abraham and Sarah. Through accounts both humorous and suspenseful of the lives of ancient Israel's patriarchs and matriarchs, Genesis lays the foundation for the epic story of the Exodus, the liberation of God's people from slavery in Egypt

The course consists of 11 weekly sessions – an introductory session and then 10 lessons. Each session begins with prayer, followed by group discussion of questions from the study guide and ends with a DVD lecture. Each participant receives a commentary and a study guide.
